DJ / PRODUCER / CULTURAL CURATOR

ELECTRONIC PRESS KIT 2026 / 2027

THE ARTIST

Rooted in the Eastern Cape. Built for global dance floors.

Athie Umgido is a South African DJ, producer and cultural curator raised in Mdantsane, East London, and now based in Cape Town. His sound moves through Afro House, Afro Tech, Gqom and melodic electronic music - driven by hypnotic percussion, deep groove and musical storytelling.

A DJ since 2006, Athie co-founded the Umgido production duo with Da Fresh. His journey spans South African radio, music production, festival stages and artist development. A graduate of Bridges for Music Academy in 2019, he later returned to support emerging musicians and works in A&R and label management at BFM Records.

On stage, Athie connects the raw energy of township dance culture with the international underground. His performance history includes Garbicz Festival and 2026 appearances at Awakenings Festival and GOAT Community. Beyond DJing, his work with Bridges for Music, Viva con Agua and Villa Viva connects music, culture and community.
